[Docket No. PHMSA-2016-0136]

Pipeline Safety: Meeting of the Gas Pipeline Advisory Committee

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Notice of advisory committee meeting.

SUMMARY: This notice announces a public teleconference meeting of the Technical Pipeline Safety Standards Committee, also known as the Gas Pipeline Advisory Committee (GPAC). The GPAC will meet to continue discussing topics and provisions for the proposed rule titled “Safety of Gas Transmission and Gathering Pipelines.”

DATES: The meeting will be held on March 2, 2018, from 10:00 a.m. to 5:00 p.m. ET.

Members of the public who wish to participate are asked to register no later than February 22, 2018. Individuals requiring accommodations, such as sign language interpretation or other ancillary aids, may notify PHMSA by February 22, 2018. For additional information, see the ADDRESSES section.

ADDRESSES: This public meeting will be held via teleconference. Members of the public may join the teleconference individually, or join the teleconference in a designated space at the U.S. Department of Transportation (DOT), 1200 New Jersey Avenue, SE, Washington, DC 20590. Please note that limited space is available for in-person attendance at DOT, and procedures governing security and the entrance to Federal buildings may change without notice. Therefore, members of the public seeking to participate in the teleconference at DOT must register on the

pipeline advisory committee meeting and registration page at:

<https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=131>. Members of the public who will join the teleconference from other locations are also encouraged to register. PHMSA will post the final agenda and any additional information on the pipeline advisory committee meeting and registration page.

Presentations will be available on the meeting page and posted on the E-Gov website, <http://www.regulations.gov>, under docket number PHMSA-2016-0136 within 30 days following the meeting.

SUPPLEMENTARY INFORMATION:

I. Meeting Details and Agenda

The GPAC will be considering the proposed rule titled, “Safety of Gas Transmission and Gathering Pipelines,” which was published in the Federal Register on April 8, 2016, (81 FR 20722) and on the associated regulatory analysis. In the proposed rule, PHMSA proposed the following changes to Part 192:

- Require periodic assessments of pipelines in locations where persons are expected to be at risk that are not already covered under the integrity management (IM) program requirements.
- Modify the repair criteria, both inside and outside of high consequence areas (HCAs).
- Require inspections of pipelines in areas affected by extreme weather, man-made and natural disasters, and other similar events.
- Provide additional specificity for in-line inspections, including explicit requirements to account for uncertainty of reported inspection data when evaluating in-line inspection data to identify anomalies.
- Expand integrity assessment methods to explicitly address guided wave ultrasonic inspection and excavation with direct in-situ examination.

- Provide clearer functional requirements for conducting risk assessments for IM, including addressing seismic risks.
- Expand the mandatory data collection and integration requirements for IM, including data validation and seismicity.
- Add requirements to address management of change.
- Repeal the use of API Recommended Practice 80 for gathering lines.
- Apply Type B requirements along with emergency requirements to newly regulated greater than 8-inch Type A gathering lines in Class 1 locations (GAO Recommendation 14-667).
- Extend the reporting requirements to all gathering lines.
- Expand requirements for corrosion protection to specify additional post-construction quality checks, and periodic operational and maintenance checks to address coating integrity, cathodic protection, and gas quality monitoring.
- Require operators to report maximum allowable operating pressure exceedances.
- Require safety features on in-line inspection tool launchers and receivers.
- Add certain types of roadways to the definition of “identified sites” (NTSB P-14-1).
- Address grandfathered pipe and pipe with inadequate records.

The GPAC meeting agenda will include the following discussion items:

- Strengthening IM Assessment Methods
- Assessments outside of HCAs
- Record Retention Requirements

- Repair Criteria (inside and outside of HCAs)

II. Committee Background

The GPAC is a statutorily mandated advisory committee that advises PHMSA on proposed gas pipeline safety standards and their associated risk assessments. The committee is established in accordance with the Federal Advisory Committee Act (5 U.S.C. App. 2, as amended) and 49 U.S.C. 60115. The committee consists of 15 members with membership evenly divided among federal and state governments, the regulated industry, and the general public. The committee advises PHMSA on the technical feasibility, reasonableness, cost-effectiveness, and practicability of each proposed pipeline safety standard.

Issued in Washington, D.C. on February 6, 2018, under authority delegated in 49 CFR 1.97.

Alan K. Mayberry,

Associate Administrator for Pipeline Safety.
